Organic Sea fennel, Nourishing Plant Complex (Organic Aloe Vera, organic Shea Butter, Babassu Butter, Beeswax), High molecular weight hyaluronic acid, Organic Seaweed Complex (Chondrus crispus, Laminaria digitata, Ulva lactuca)

RECOMMENDED USE

Morning and evening, apply with light circular movements on face and neck after using KENZEN TRUE Elements® Youth Activ Serum or Revitalizing Serum.

MOISTURIZING CREAM

PRODUCT CODE: 2044

This smooth, light cream is enriched with marine extracts, shea butter and hyaluronic acid to moisturize and protect the skin as well as to restore its natural glow. Organic Sea Fennel is packed with minerals to help skin cells regenerate, and a Nourishing Plant Complex composed of rich organic ingredients help to nourish skin deeply while providing a protective barrier. This advanced formula acts on the surface of the epidermis to form a protective veil to maintain the skin's hydration, resulting in an immediate smoothing effect.

Our newly improved KENZEN TRUE Elements® formulation ensures the use of pure, clean, natural ingredients harvested from the high-quality seawater of the Iroise Sea. Harvesting methods by hand or by boat are designed to preserve resources and maintain a low carbon footprint through local distribution of raw organic ingredients.

The addition of COSMOS to our Ecocert certification elevates our organic requirements to be more eco-friendly not only in choice of ingredients but also with regards to textures and fragrances. KENZEN TRUE Elements® is committed to using no GMOs, pesticides, parabens, polyethylene glycol (PEG), silicone, dyes, aroma, controversial ingredients, gluten, alcohol or aluminum salts.

- Organic seaweed blend hydrates deeply
- Helps reinforce skin's elasticity
- Marine botanicals help skin cells regenerate
- Designed to help strengthen skin's defense system
- Formulated to promote smooth, youthful-looking skin
